HEADLINE: Texas Files List Of Proposed Experts In Medicaid Action

DATELINE: TEXARKANA, Texas

## BODY:

The State of Texas has provided the federal court presiding over its Medicaid recovery case with a list of proposed witnesses for its September trial (The State of Texas v. The American Tobacco Co., et al., No. 5:96CV91, E.D. Texas, Texarkana Div.; See 4/17/97, Page 30).

The state filed its list of experts and subsequent modifications with the U.S. District Court for the Eastern District of Texas in Texarkana.

Those slated as experts for the plaintiff are:

David Anderson, J.D.: A law professor at the University of Texas School of Law, he is an expert on mass communications, deceptive acts and practices and general law.

Jeffrey J. Arnett, Ph.D.: a developmental psychologist, he is to testify on the psychological aspects of cigarette use among adults and children and the influence of risk perception.

Charles Begley, Ph.D.: An associate professor of management and policy at the Center for Health Policy Studies at the University of Texas School of Public Health, he will testify on health care economics.

Neil Benowitz, M.D.: A professor of medicine at the University of California, San Francisco, he will testify on the physiological effects of nicotine and the activities of the tobacco industry.

Lester Breslow, M.D.: With the University of California, Los Angeles, School of Public Health, he will testify on the prevalence of smoking and the incidence of disease.

Joseph Bumgarner, M.S.: a research biochemist formerly employed by R.J. Reynolds Tobacco Co., he will testify on the link between cigarettes and lung disease.

David Burns, M.D.: With the University of California, San Diego Medical

PM3000457496

Center, he will testify on human diseases related to smoking.

William Cahan, M.D.: a thoracic surgeon at Sloan Kettering Cancer Center, he will discuss tobacco industry activities and the effects of smoking on the body.

David Carr, M.D.: a physician who has served in various roles in health care and professional organizations, he will testify on lung disease and the implications of smoking.

Ronald W. Carter, Ph.D.: an expert on the use of information strategies and how they achieve a desired outcome.

Robert Chamberlain, Ph.D.: the director of the Cancer Prevention Education and Training Program at the University of Texas, he will testify on cancer prevention and smoking cessation.

Denton Cooley, M.D.: a cardiovascular surgeon with the Texas Heart Institute.

Michael Cummings, M.D.: with the Department of Cancer Control and Epidemiology at the Roswell Park Cancer Institute in New York, he has knowledge on tobacco and smoking prevalence.

Ron Davis, M.D.: the former director of the Department of Health and Human Services on Smoking and Health in Atlanta.

John DiGiovanni, Ph.D.: a biochemist and professor at the University of Texas, he will testify on tumors and the chemical components that are in tobacco and occur during smoking.

Thomas Donaldson, Ph.D.: a professor of business ethics in the legal studies department at the Wharton School of the University of Pennsylvania.

Victor DeNoble, Ph.D.: a physiological psychologist formerly employed by Philip Morris Inc., he will testify on nicotine acetaldehyde and its effects, nicotine analogs and the development of a safer cigarette, and behavioral studies involving nicotine.

Sir Richard Doll, M.D.: a physician with the University of Oxford in the United Kingdom, he will testify on the prevalence of smoking and the incidence of tobacco-related diseases.

Joel Dunnington, M.D.: a professor of radiology at the University of Texas, he has knowledge about tobacco industry activities and techniques for diagnosing tobacco-related cancers.

J. Hadley Edgar: a professor from Texas Tech University School of Law, he will testify on attorneys' fees and Texas torts and remedies.

William Elliott, J.D.: a tax attorney.

William A. Farone, Ph.D.: a physical chemist who will testify on the manufacturing process for cigarettes at Philip Morris.
